HOWARTH **MAXVIEW** FULLY FINISHED WINDOWS & DOORS SLIDING FOLDING DOORS

A high quality range of fully finished sliding folding doors to complement any situation. Supplied fully factory paint or stain finished and complete with lock, handles and all other fittings in place - saving you both time and money compared to traditional site finished products.

Our commitment to the environment

Howarth Windows & Doors is part of the Howarth Timber Group which has been established for over 165 years and has built a reputation for providing quality products and high service levels gained from years of industry experience. The Howarth Timber Group is committed to worldwide environmental policies and is a founder member of the Forests Forever Campaign, encouraging the use of sustainable resources.

We use only the finest timber

 The Howarth Windows & Doors **MAXVIEW** sliding folding door range is manufactured by skilled and experienced craftsmen using the very latest machining technology ensuring quality of surface finish and accuracy of assembly. We select only the very best European and Russian Redwood in accordance with PEFC (Programme for the Endorsement of Forests Certification) accreditation standards that are internationally recognised and confirms the timber originates from well-managed, sustainable sources.

Saving you time and money

The **MAXVIEW** sliding folding door range is a fully factory finished product. Supplied securely packed with pre-fitted glazing, locks, handles, gaskets and fittings and either painted or stained to your exact requirements, keeping installation time to an absolute minimum.

Quality and security you can rely on

All **MAXVIEW** sliding folding door frames are manufactured from a solid timber section, doors utilise a four piece laminated section and cills are Iroko, one of the most durable hardwoods and ideal for this application. The end result is a fully weather resistant, structurally stable product that will last for years and years.

To help keep heating costs to a minimum and to comply with the latest Building Regulations the **MAXVIEW** sliding folding door range has a 24mm double glazed unit complete with a 10 year manufacturers guarantee as standard*. A variety of bespoke options allow you to also use the latest low-e, argon filled or any of a wide selection of enhanced double glazed units - all going towards providing you with one of the lowest U-values on the market.

A wide range of glazing options is available, including georgian bar, diamond or square lead, low-e, obscure as well as many others. Please contact us for further details.

Providing a high security locking system, all **MAXVIEW** sliding folding doors utilise a Lockmaster three-point locking system on the main door unit with sturdy Lockmaster slave locks on the remaining units - complete with a ten year manufacturers guarantee.

The only limit is your imagination

Available in a wide selection of designs, colours, finishes and sizes there's a sliding folding door to bring out the best in any situation.

Various ironmongery options are offered including silver, gold, white, black, satin effect, polished chrome effect and polished brass effect.

Supplied as standard with a choice of six attractive paint finishes or one of six contemporary stain finishes (see right for details) the range can also be specified in the complete RAL colour range. All RAL finishes are guaranteed for 8 years**, stain finishes for 5 years**. All **MAXVIEW** sliding folding doors have a 30 year** guarantee against fungal and insect attack.

With such a wide choice of cill details, door sizes and design options it is possible to specify a door to meet your exact requirements.

*In circumstances of extreme weight doors and glazing may be supplied separately for on-site glazing. We will advise of this, if relevant, at the time of ordering.

**Guarantees are subject to limitations and are strictly dependent upon compliance with manufacturer's usage and maintenance instructions, these are available upon request.

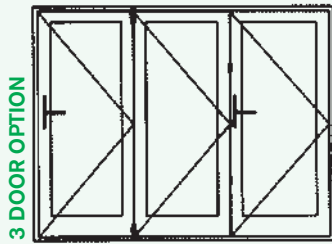

As with all multi-folding doors this product is suitable for weather conditions up to and including 'moderate exposure'.
